### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mauer US 5,977,228 alone or in view of Ward US 3,895,029.

3. The rejection set forth under 35 USC 103 in the paper mailed 1/15/08 is deemed proper and is herein repeated.

4. Applicants remarks filed 6/11/08 have been fully considered but have been found not persuasive.

5. Specifically, applicants argue that the claimed compositions are intended to be used as treating agents for leather and textiles. This is compared to Mauer which shows compositions useful in floor finishing. This is not persuasive. Applicants claims are directed to a composition. The intended utility in no way limits, or distinguishes, the claimed composition from the prior art.

6. Applicants acknowledge that the claimed hydroxyl esters are suggested in the Mauer and Ward patents but point out that the melting point and solubility properties are not discussed in the prior art. This is not persuasive. The melting points and solubility properties are inherently possessed by the chemical compounds. One is directed to select the claimed esters. Once the claimed ester is selected, the melting point and

solubility property is met. As such, these claim limitations are inherently possessed by the esters suggested in the art. There remains no showing that compares the closest prior art with the instantly claimed invention.

### ***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter D. Mulcahy whose telephone number is 571-272-1107. The examiner can normally be reached on Mon.-Fri. 8-4:30.
